Dimensions

- PVII
  - Dimensions: 19.8" / 504mm
  - Water Drain Out: 21.4" / 544mm
  - PV Pro: 23.5" / 598mm
  - Power-Cyclone: 24.9" / 632mm

- PVII-Plus
  - Dimensions: 14.6" / 370mm
  - Water Drain Out: 13.7" / 349mm
  - PV Pro: 16.0" / 406mm
  - Power-Cyclone: 17.7" / 450mm

- PV Pro
  - Dimensions: 17.7" / 450mm
  - Water Drain Out: 16.4" / 406mm

- Power-Cyclone
  - Dimensions: 17.7" / 450mm
  - Water Drain Out: 16.4" / 406mm

The "Muck Buster" line of Pond Vacuums offers you 3 sizes of pond vacuum. For small to large ponds, a Matala Pond Vacuum is a great tool to keep your pond in top shape.

All 3 sizes have the same powerful motor. Our new energy efficient German motor design offers the power of a 2 hp with the energy savings of a 1.5 hp. Matala vacuums are known for having great suction power and are very reliable. We use only quality hoses, fittings and connections to ensure you get the job done.

The original “Pond Vacuum II” is a great choice for ponds up to 2000 gallons. The “Pond Vac II Plus” and the “Pond Vac PRO” are suitable for bigger jobs. Matala "Muck Buster" Vacuums all function on a fill and drain cycle. When the holding tank is full the motor will turn off automatically and the dirty water will drain out to the garden or yard drains downhill by gravity. The “drain out” cycle allows 20 to 40 seconds (depending on vacuum size) to completely drain and then the motor will turn back on automatically to continue vacuuming.

Good pond hygiene will reduce algae growth and improve your fish health. If you have debris building up on the bottom of your pond it may be time for a good pond vacuum.

**FEATURES & BENEFITS**

- **New energy efficient powerful motor.**
- **4X more power than competitor**
- **Suction lift 5 ft. above water**
- **Auto fill & drain cycle**
- **5 extension tubes**
- **4 size vacuum heads**
- **4pc removable feet**
- **4 vacuum heads stands**
(Easy to keep the vacuum heads when they are not on use)

**Pond Vacuum Series**

**Pond Vacuum II & II-Plus & Pro**

**Pond Vacuum II**

- Powerful non stop vacuum with balanced power discharge pump
- Innovative design with 2 motors
- Internal pre-filter bag
- Easy operation with heavy duty wheels and handle
- Efficient and reliable
- Plastic extension pipe
- 26.2ft/8M intake hose
- 32ft/10M exhaust hose
- Industrial grade
- 1 year limited warranty

**ACCESSORIES FOR PVII, PVII-Plus & PVPRO**

- Crevice tool
- Squeegee nozzle
- Transparent nozzle
- Round brush

**ACCESSORIES FOR POWER-CYCLONE**

- 10ft/3.2M Discharge hose
- 8ft/26.2M Suction hose
- x4 Plastic extension pipe

---

**Power-Cyclone Non Stop Pond Vacuum**

**FEATURES & BENEFITS**

- **Powerful non stop vacuum with balanced power discharge pump**
- **Innovative design with 2 motors**
- **Internal pre-filter bag**
- **Easy operation with heavy duty wheels and handle**
- **Efficient and reliable**
- **Plastic extension pipe**
- **26.2ft/8M intake hose**
- **32ft/10M exhaust hose**
- **Industrial grade**
- **1 year limited warranty**

**ONE STEP NON STOP**

Debris is vacuumed into the 13 gallon holding tank whereby large solids are collected into a pre-filter bag first. The dirty water is then pumped out to waste by the action of the internal 1 HP sludge pump. 32 ft of exhaust hose allows the waste water to be pumped to any elevation up to 18 ft high. Total working distance is over 60 ft. An optional secondary exhaust hose can be added onto the end of the discharge hose to gain an additional 32 ft if needed.

Heavy Duty wheels perform over rough terrain & the Tote Handle makes maneuvering easy.

This innovative “Power” vacuum is very versatile and can be used in a variety of applications.

- Pond Cleanouts
- Filter Tank Cleanouts
- Basement Floods
- Household Carpet Floods

**ACCESSORIES FOR POWER-CYCLONE**

- Stainless steel extension pipe

**Note** Do not return dirty water to the pond. Pump dirty water to your garden or proper drainage system!
